VOL. XXXIII, NO. 25

## CANDIDATE FOR CONGRESS.

We present to our readers this week the picture of Dennis D. Conway, the democratic candidate for congress in this district. The tenth congressional district is a large one, including thirteen counties in the northern part of the state, extending from Wood county on the south to the shores of Lake Superior on the north, and it is doubtful if the democrats in all this territory could have picked out a man who is a more energetic and tireless worker than Mr. Conway.

### ADVERTISED LETTERS.

Ladies: Brandstett, Miss Minnie; Olson, Miss Letha G.; Reeder, Mrs. Geo. U.; Sparks, Mrs. Frank.

Gentlemen: Central Iowa Hdw. Co.; Corrie, Chester Big Hawk Mr.; Parsonsworth, Mr. Ray; Green Grass, Robert; Howes, Mr. C. J. Manz, Mr. August (foreign); Richter, Jack E.

### A Large Apple.

E. H. Compton is exhibiting a large apple which was sent him by his brother, H. H. Compton, who is a resident of Buckley, Washington.

The apple is 15 and one half inches in circumference and weighs 23 ounces, and is certainly a fine specimen of fruit.

Anton Marceau was up before Justice Brown on Thursday on a charge of driving over the bridge faster than a walk. He paid a fine of five dollars and costs for his hurry.

## AN EVEN BREAK.

Football Game Between Grand Rapids and Stevens Point Again Stands 0 to 0

The Normal football team came over from Stevens Point on Saturday and played a game with the local high school team and the score resulted in a tie as before, it being 0 to 0. The day was exceedingly warm for football, but the boys played a good game, nevertheless, and very little time was taken out by either side either on account of injuries or for resting up. Our boys had rather the best of the game most of the time, and at one time they got near enough to the goal so that a drop kick was tried, but failed to make goal. Most of the gains were made thru the line, and runs around the end generally failed to gain anything for either side.

Under the new rules there is more punting than in the old game, as in evenly matched teams it is almost impossible to make the required ten yards gain in three downs.

There was one sensational play in the second half, when the Stevens Pointers lost the ball on a fumble and Crowns of the home team picked it up and started down the field on a gallop. There was a Stevens Point boy right behind him, however, but the ball was advanced fully thirty-five yards before Crowns was downed, and had he not been suffering from an injured limb, it is probable that a touchdowns would have been made right there. The Stevens Point team was considerably heavier than our boys and it was only the extra weight that saved them from certain defeat.

For years past the tenth district has been represented by men who cut no more figure at the national capital than they would had they remained at home; men who, if they had any convictions, never voiced them, and it would seem as if the time had come for a change.

For years past the tenth district has been represented by men who cut no more figure at the national capital than they would had they remained at home; men who, if they had any convictions, never voiced them, and it would seem as if the time had come for a change.

For years past the tenth district has been represented by men who cut no more figure at the national capital than they would had they remained at home; men who, if they had any convictions, never voiced them, and it would seem as if the time had come for a change.

## May Build a Brewery.

Frank Boyanowski announces that it is his intention, at the present time to erect another brewery in this city. He states that his plans are not yet completed, but at the present time it is his intention to build the place on the west side where it will be handy to the three depots, so that the shipping facilities will be first class in every respect. He has not decided on the capacity of the plant, but thinks it will be about the same as that of the present brewery owned by the Grand Rapids Brewing Co.

It would seem as if one brewery would supply the wants of the people in this immediate vicinity, but as Mr. Boyanowski has been interested in the brewing business before he should be able to judge what the demands are for an institution of this kind.

The members of the Grand Rapids Art Co. are now practicing their art on some other community, having moved out of town so gradually and quietly that nobody realized they were gone to stay until they had been away for several days.

The Grand Rapids Art Co. came to town about two weeks ago and put out a display of the old time chromotypes which they told the admiring public were something brand new, and they offered to teach the process of making them for the nominal sum of five plunks. They then took a partner in the person of Dr. Wm. Waldo, and since the original owners of the Art company left, William has been the whole works. It is stated that there were several unpaid bills that the company forgot to settle before leaving.

A Neglected Duty. Some time ago there came to the Tribune office a book entitled "The Packers, the Private Car Lines and the People," written by J. Ogden Armour. It is a book bound in yellow cloth about the color of a small pos sign, but for some reason or other, up to the present time we have neglected reading it. Whether this neglect has been an injustice to Mr. Armour, or has proven beneficial to him, we are unable to state. Some day when it is raining, and there is nothing to do in the office, and it is impossible to find anybody to play checkers, and there are no other books or papers to read, we will steal a few hours from this busy life and give Mr. Armour's book a careful perusal.

We understand that the book was written for the purpose of giving the people the packer's side of the story in the recent investigations that have been held in the country, but up to date it does not seem to have caused much of a furor among the reading public.

## A Prohibition Speech.

Dr. Eaton, the prohibition candidate for governor, delivered a speech at the opera house Monday evening. Mr. Eaton is an entertaining talker and presented the cause of the prohibitionists in a most convincing manner. The theory of prohibition, like many other theories, is a most convincing one, but it does not work out in practice. One reason is that there are a great many people who are hypocritical enough to talk against the use of intoxicating liquors and thereby convey the impression that they are prohibitionists, or at least temperance advocates, when all the time they have a supply of booze in the cellar for their own use. It might be said that there are black sheep in every party and that the argument is no good, which may be true. But the fellow on the outside sizes up the whole crowd by this one man and immediately concludes that he wants nothing to do with such a crowd of hypocrites, judging that they are all like the fellow whom he has found out.

Beall to Wrestle McLeod. Fred Beall the Marshfield wrestler has been matched to wrestle with Dan McLeod, who for many years held the middle weight championship of the world. Beall and McLeod met in Fond du Lac about eight years ago, when McLeod agreed to throw the Marshfield boy three times in an hour, but it took him so long to gain the first fall that he saw he was up against a losing proposition and threw up the match. McLeod is a man of about Beall's weight and build and the match should be a good one. It will occur in Chicago next Friday evening.

Will Open a Meat Market. Otto Siwert and Ed. Warner have leased the vacant building on the corner of Grand and Second Avenues on the west side and expect to open a meat market there as soon as the necessary alterations have been made. Mr. Siwert formerly operated a shop at Nekeosa and is well posted in the business.

Hayes-Clark. Miss Minnie Hayes of this city and Wm. Clark of Rudolph were married Tuesday afternoon at the home of Mr. and Mrs. O. E. O'Dell, Rev. Dean of the Christian church officiating. They were accompanied by O. E. O'Dell and Miss Clark. Mr. and Mrs. Clark will reside at Rudolph where the groom is engaged in the creamery business.

John Casey, who has been employed with the Electric Light Co. the past two years, resigned his position and departed last week for Moscow, Idaho, where he has taken charge of a plant.

## AWARDED PRIZES.

Ladies Distribute Money to Those Who Went Into Competition for Neatness.

The directors of the City Federation of clubs met at the home of Mrs. W. J. Conway on Monday to hear the reports of the chairman of the city improvement committee, Mrs. MacKinnon.

Last spring it was decided by the Federation Clubs to give prizes to those who would enter a competition and have the best kept premises, lawns and other surroundings at home under a valuation of \$500, hoping thereby to encourage property owners to beautify their premises and thus improve the appearance of the city. Owing to the lateness of the season when the work was taken up, the committees in charge of the work did not meet with the success they had hoped to in getting people to enter the competition, and as a consequence there was not as much done as it was hoped there would be. However, a few persons tried to improve their property and were awarded prizes.

The prizes, while not large, will do something toward purchasing shrubbery, buying a lawn mower, paying water rents, etc., and should be an inducement to every property owner, no matter how small, to enter the competition, which has been most successfully carried out in other places by the American Civic Association.

Mrs. Olegard and Mrs. Clark Lyon were each awarded a prize of \$5 for their excellent work, and Mrs. Buss was given a prize of \$2.50 while others were given honorable mention for the very praiseworthy care and attention which they gave to their homes, but they did not enter the competition.

The city federation hopes to begin early next season with the idea of getting as many as possible to help in beautifying their places and thus making the city more attractive. The subject of cleanliness and neatness was discussed and the idea of making the banks of the Old Wisconsin a dumping ground for all sorts of rubbish and refuse where persons passing over the bridge, instead of enjoying the beauties of the scenery, are disgusted and annoyed by the unsightly conditions, was condemned by those present. It is thought no more than right that all the merchants who are situated along the river bank should have waste paper and garbage cans which could be emptied at intervals and thus do a great deal toward improving this part of the city. Proper receptacles for waste paper, fruit skins, etc., will be purchased by the Federation and placed at intervals along the principal business streets in the hope of keeping the streets and public highways clean. And an anti-expectation law will be brought before the next meeting of the city council with the hope for remedying this disagreeable and dangerous evil.

All of the ladies who attended the meeting of the State Federation at Wausau last week returned here full of enthusiasm and energy after hearing the reports of the splendid work being done all over the country by the united work of Woman's Clubs.

Our city federation now numbers eighty members who hope to accomplish some good work here at home in the near future and desire the co-operation of the city council, and the citizens generally.

Amusement for the Ladies. According to a dispatch to the daily newspapers Janesville is several notches in advance of her sister cities throughout the state. Up in this neck of the woods when our mothers, sisters and daughters meet in social communion they are satisfied if they hear the report of Sister Somebody as to how the missionaries are getting along in Japan, making their note good for the coming month, imbibing a few mugs of strong coffee, and getting on the outside of a dish or two of "Combination" salad with a few lady fingers on the side. But down in Janesville it is different. There at a recent married ladies party two local sluggers were introduced to the bunch and wound up the entertainment with an exhibition of a few rounds of the manly art of self defense, the mill winding up with a fake knockout.

It must have proven entertaining, as the item states that another entertainment has been planned for the near future. The rest of them will have to go some if they want to beat Janesville.

## Correcting an Error.

Dairy and Food Commissioner J. I. Emery announces that it is not his intention to remove the odor from limburger cheese. Thru some announcement that he had made relative to compelling cleanliness about cheese factories the impression got abroad that Mr. Emery was going to have the cheese factories so clean that there was going to be no smell to limburger any more. It will no doubt be welcome news to our readers to learn that the apprehension is unfounded.

## Silver Wedding.

One of the happiest social events of this season was undoubtedly the celebration of the twenty fifth anniversary of their wedding day by Mr. and Mrs. Gustave Kinger on Tuesday evening.

For some time relatives and friends had been planning to make this day one to be remembered by the happy couple. That they planned well all present testify.

At an early hour in the evening the joyous throng began to arrive at the home of the bride. When finally the last stragglers had been gathered in and some time spent in a most delightful manner, every man present was ordered to get his "best girl" and proceed to the dining room, where a sumptuous dinner was in waiting. Much more quickly than one might expect these orders were executed, for each man seemed to know just whom to go for. It is worthy of note that the majority of best girls had combed silver-colored streaks into their hair, in honor of the occasion of course. The dinner over, the groom, this time disregarding the aid of a "best man," led his bride into the parlor, where an altar had been improvised. Here after a few appropriate remarks by the Rev. Mr. Mellicke of the First Moravian church, the happy couple exchanged their marriage vows consecrated.

The solemnity of this act was in no small degree enhanced by the fact that the parents of both groom and bride could share in the same.

This ceremony over, a few more hours were spent most agreeably in a social way, when to their dismay the "best girl" discovered that the clock was getting ready to strike twelve. As they insisted, despite the pleadings of their "frustrated" bride, the happy event was brought to a close. Many and beautiful were the tokens of esteem left behind by the departing ones in the shape of all kinds of silverware. To all the good wishes and felicitations words of regard already received by the happy couple, the Tribune desires herewith to add its long life to the bride and groom.

Miss Ella Michaels selected the Woman Independent as her subject and handled it in a manner that left her hearers convinced that woman was all that has ever been claimed for her.

Mrs. Ellis gave a reading from Mark Twain's humorous sketches, which was enjoyed by all. There were also vocal selections by Dr. W. O. Blanchard and Miss Estelle Astor and instrumental music by Master George Mullen.

Green and white were the predominating colors in the decorations and the different courses in the banquet were also in harmony.

After the dinner the guests engaged in card playing for a couple of hours, making altogether a most enjoyable evening from start to finish.

## GAVE A BANQUET.

Members of the Womens Club Entertain Gentlemen Last Evening.

The Womens Club held their annual banquet at the home of Mr. and Mrs. F. L. Mullen on Tuesday evening, and the event proved a most enjoyable one. The time set for the banquet was 6:30 o'clock, and shortly after this hour the guests were seated at the table. The following menu was served:

Roast Beef	Creamed Fish	Wafers
Baked Turkey	Pickles	Olives
Macaroni and Cheese	Roast Potatoes	
White Bread		
Cambury Ice		Celery
Salad		Wafers
Ice Cream		Cake
		Coffee

Mrs. Ellis Pease acted as toast mistress and proved fully equal to the task. Mrs. J. W. Rockwell gave a toast on the subject of patriotism, and the matter was handled in quite a humorous manner.

J. C. Davis took as his subject Woman and the Law, and combined sentiment, humor and good hard sense in a manner that was most entertaining.

Miss Ella Michaels selected the Woman Independent as her subject and handled it in a manner that left her hearers convinced that woman was all that has ever been claimed for her.

Mrs. Ellis gave a reading from Mark Twain's humorous sketches, which was enjoyed by all. There were also vocal selections by Dr. W. O. Blanchard and Miss Estelle Astor and instrumental music by Master George Mullen.

## Boyanowski Acquitted.

Frank Boyanowski, the west end saloon keeper, who was arrested last week on a charge of assault and battery, had his trial before Justice Brown on Thursday, and was acquitted of the charge. The case was decided without the aid of a jury, and both of the interested parties consented that their own case should be heard by the judge alone, and the evidence showed that the saloon keeper was entitled in using the force he did in arresting Michael from his place.

## Will Enlarge Accommodations.

Nate Anderson has decided to buy up the dwelling house next block of the hotel for the accommodation of guests, which will increase his capacity very materially. For some time past Mr. Anderson has had more guests at his hotel than he could take care of and the change is made on this account.

## The Iron Opera Co.

The performance given by the Iron Opera Co. at the Opera House on Thursday evening was rather a disappointment to those who attended. The last time this company was here they gave a good show, and the public, supposing that they would do equally well this time, turned out in good shape and the house was well filled.

## Operation for Appendicitis.

James Harrington, the bus man, was taken to Riverside Hospital on Monday suffering from an attack of appendicitis. He was operated upon on Tuesday for his trouble by Dr. Rockwell and Bauman and is reported to be getting along nicely.

## Election Supper.

The members of St. Catherine's Guild will serve their annual election supper in the Wood County National Bank building next Tuesday evening, Nov. 6th. The public is extended a cordial invitation to attend.

Seth Jones was initiated into the Elk lodge at their regular meeting on Tuesday evening.

## CHILDREN'S CLOAK SALE!

We are going to give the parents of Grand Rapids and vicinity a special chance to buy winter cloaks for their children and make a special inducement to all to buy of us during this sale. We never had a more varied and complete stock of children's cloaks, ranging

in quality from the cheaper grades to the finest garments in the market, and every garment at a specially low price on the day of sale,

**SATURDAY, OCT. 20th**

As a SPECIAL INDUCEMENT TO YOU to buy on Saturday we are going to present a beautiful gift with each coat sold on that day. Also a beautiful gift will be presented to every purchaser to the extent of \$5 of Dry Goods, Cloaks, Shoes, Hosiery, Underwear and Furs.

**TAKE NOTICE** The latter part of this month the representative of Siegel Bros. & Co., of Chicago, Cloak Manufacturers, will take charge of a Ladies' and Misses' Coat Sale in our store, and will have with him a full and complete line of coats. Wait for this sale to buy your winter coat and watch for date of sale.

We have just received the newest novelties in Belts, Collars, Purses, Etc. Let us show you these novelties.

**Heineman Merc. Co.**  
GRAND RAPIDS, WISCONSIN

"PALMER GARMENTS ALWAYS LEAD"

**JOHNSON & HILL CO.**

GRAND RAPIDS, WISCONSIN.

**Palmer Superiority**

We wish to thank our many Lady friends for the liberal patronage bestowed upon us during last week's Cloak and Suit Sale. The great demand for "PALMER GARMENTS" has demonstrated beyond a doubt the superiority of these justly famous goods. The many years they have been upon the market, the liberal guarantee of the makers, coupled with our own, makes the "PALMER", the Ideal "Garment" to buy. No risk on your part whatever, we always stand ready to make good.

And now to those who could not avail themselves of the sale, we wish to say, that our stock of "PALMER" Coats, Jackets, Suits and Skirts is most complete. We can show you designs and patterns that will certainly please you. We can fit anyone, Lady, Misses or Children, and the price will be within your desired expenditure.

"Nothing would please us more than an opportunity to demonstrate 'PALMER' Superiority".

A handsome and stylish ladies' coat 50 inches long made of brown plaid coating, has the new coat collar, satin lined yoke, double breasted, 4 patch pockets, fancy button trimmed, a coat to feel proud of at only **\$20.00**

Misses full length coat of herring blue mixture, graduated strap-down back and each side of front, finished with fancy buttons, velvet collar finished with fancy braid, yoke self lined, a handsome coat **\$12.00**

Ladies' coat in fancy gray plaid coating, front and back trimmed with straps, blue velvet inlaid collar, sleeves latest leg-o-mutton design finished with straps and turn back cuffs, yoke and self lined. A very neat and showy coat that will give satisfaction, at **\$14.00**

A very pretty and stylish child's coat, one of the latest models, cut in box effect, made of fancy gray coating, collar and cuffs trimmed with light green velvet, fancy braid and buttons, pockets piped in green velvet, only **\$5.50**

Do not neglect to visit our Fur Section.

THE RIGHT GOODS, AT THE RIGHT PRICE.

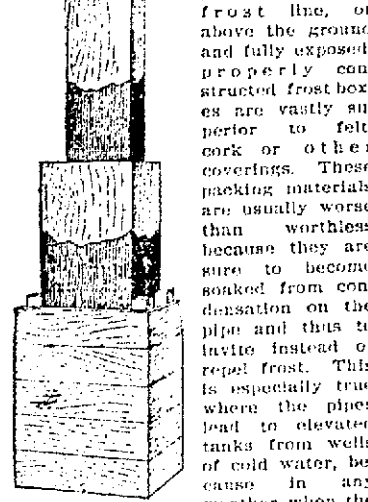

# FARM AND GARDEN

## PROTECTING WATER PIPES.

Boxes With Dead Air Space Between the Surfact Method.

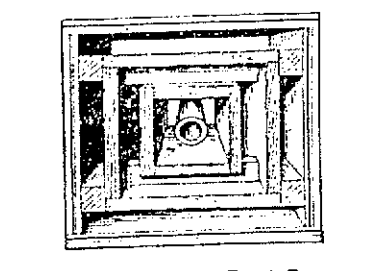

Nothing is so good a protector from frost or heat as dead air in insulated compartments. Where water pipes must be placed in the ground above the frost line, or above the ground and fully exposed, properly constructed boxes are usually better than worthless coverings. These packing materials are usually worse than worthless because they are sure to become soaked from condensation on the pipe and thus to invite instead of repel frost. This is especially true when the pipes lead to elevated tanks from water mains, because in any case, in any weather when the temperature is above that of the water, condensation is likely to occur.

The simplest construction of an effective protecting frost box, says the Orange Judd Farmer, is constructed with three dead air spaces with frost and extending from below the tank or at the house. After the pipe is in place a box built of one-half or three-quarter inch stuff and six inches inside diameter is built with the

Cross Section of Frost Box.

pipe in the center. It is then called outside with tar paper. Trimmers are then placed around the box to build another box upon, a two-inch air space being left between the two boxes. In like manner this box is called and supplied with trimmers for an outside box of six inch or matched boards to surround a second two-inch air space. Frost boxes so constructed will be found effective in any climate and are fully as satisfactory as more elaborately constructed ones.

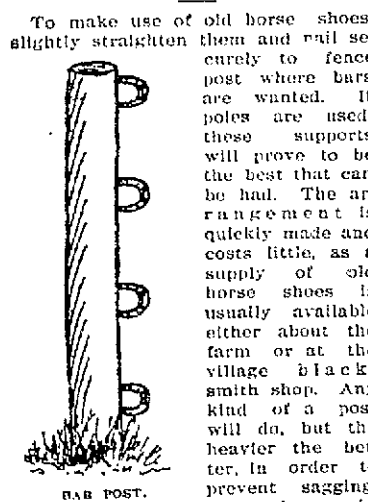

Cross Section of Frost Box.

USE FOR OLD HORSESHOES.

How They Can Be Made to Serve as Supports for Fence Rails.

To make use of old horse shoes, slightly straighten them and nail securely to fence posts where bars are wanted. If poles are used, these supports will prove to be the best that can be had. The arrangement is quick and easy to make, and a supply of old horse shoes is usually available either about the farm or at the village blacksmith shop. Any kind of a post will do, but the heavier the better, in order to prevent sagging.

The important point to observe in setting bar and gate posts as well as corner posts, is to put them in the ground and tump the earth very solidly around them. Bar posts should be set at least three feet in the ground and four feet is none too deep where the land is springy or inclined to heave.

HOME WATER SUPPLY.

System of Piping Which Brings Comfort and Ease to One Farmer.

Farmers could have many more home comforts if they would judiciously use the money wasted in other ways. We prize our waterworks very highly. We have hot and cold water in the bathroom, cellar and kitchen. Water is also supplied automatically to the stable, hen houses, and hothouses. We have also a fountain on the lawn. This water, explains a Delaware farmer in writing to the Orange Judd Farmer, is pumped by a windmill into a large tank from which pipes lead to various outlets. The windmill cuts all our fodder, grinds all the feed in addition to the pumping, and does more than a man can do.

Raising Squabs.

The raising of squabs is now receiving great attention in this country, and multitudes are going into it. Great claims are made for the large profits in the business, but it is certain that in some parts of the country the business is being overdone, just as the Belgian hare business was overdone before it. This state of affairs discourages the people that wish to go into it, but it should make them cautious about plunging in too hastily and without a due examination of the conditions existing in the place in which the enterprise is to be started.

Sorting the Potatoes.

The best place to sort potatoes is in the field soon after they are dug. They are all spread out to view then. Those intended for seed can best be selected at this time. Choose tubers of medium size and perfect form. The small ones are then handy to use for feeding to hogs, poultry, etc. They should be boiled and mixed with meal or shorts.

Never tell all you know; for he who tells everything he knows often tells more than he knows.

## HOW DEEP TO FARM.

Conditions of Soil, Drainage, Etc., Must Determine the Question.

The depth to which a man plows his land has a bearing on the success of his farming. It is possible to plow too deep, and it is certainly possible to plow too shallow, to get the best results. But someone will ask, what is the best depth for plowing? That is an unanswerable question, because all kinds of conditions exist on farms, and those conditions are what must set the depth of plowing. The depth to which to plow is a problem that has been considered, with other questions, and not by itself, by our best investigators.

In the investigations of the soils of southern Illinois, Prof. Hopkins found sections where the potash had been very much exhausted in the upper seven inches of soil, so much so that the crops could not get enough of that element to make the growth satisfactory. The soil of Prof. Hopkins was to plow a little deeper, and thus get the use of the potash below the depth of the old plowings. Now, here was a case where the land had been farmed for so long a time that the potassium was exhausted in the soil usually turned up by the plow. It is certain that if a new piece of soil were brought in, the conditions would not be the same. This illustrates the fact that no rule can be laid down.

How deep to farm must depend to a considerable extent on the drainage conditions existing on each field, says the Farmers Review. If the land is flat and wet, during a good deal of the growing season, no depth of plowing will increase its productivity. The roots of plants will not strike below the water line, and if, during an unusually dry time, they did go down, it would be to rot when the water rose permanently around them. The character of the soil also has much to do with the depth of plowing and cultivating. A clayey soil will not give as good results if plowed deep as a sandy soil, for the air will not readily penetrate the clayey soil to a certain depth, as it will the sandy soil, nor will the heat of the sun so quickly warm it up to a point where the seeds will germinate in it. Sandy soil, on the other hand, is plowed quite deep for a number of reasons. One of these is that it dries out more quickly than clayey soil, as clay contains more water than sandy soil. The sandy loam will therefore facilitate the deep growing of roots, as the roots easily penetrate the interstices between the particles of soil.

There is still doubt that the soil can be utilized several inches deeper than is usually the case. Subsoil plowing has proved very beneficial on some lands, but not on others, and here again comes in an illustration of the fact that we cannot lay down any rule that will prove of value in all cases. The depth of plowing must depend on the fertility that can be applied to the soil and its ability to be aerated.

## STORING THE CORN CROP.

Crib Which Can Be Made Rat and Bird Proof.

I have a corn crib which is proof against rats and birds, writes a South Dakota correspondent of the Farmer. It is set on posts 1 foot out from the ground; sills lengthwise 2x4 inches, floor joists 2x6 laid on top of sills. Posts 2x4 inches and one-half foot high are nailed to floor joists resting on top of sills. Plates 2x4 inches with 1x4 inch cross section are fastened to the floor joists. The roof is arranged to give 1 inch eaves clear of sides and is covered with three-ply tarred paper. It has a double lock, the bottom boards of rough hemlock and top floor of Carolina pine matched.

Extra heavy one-half-inch wire mesh was put inside of posts but fastened in place by staples, also strips one-third inch over to hold it securely in place. This room is 20 feet long and has a swing, wire door on the end to raise out of the way for unloading corn from the wagon. There is a space 8x12 feet on the north end which is covered with matched boards and separated from the corn by a movable fence of boards, giving room for shelling and being protected from the cold winds. The door on the east side is used to get into this room. The wire door and this double lock looked as a precaution against borers.

## FARM BITS.

Keep an eye out for Jack Frost.

Shocking the corn is harder than filling the silo.

Hustling hens are the ones to lay eggs for hatching business birds.

The Indiana what crop is figured by the state bureau of statistics as 50 per cent. larger than last year's banner crop.

Corn does not contain enough lime to form the eggs that can be produced from the other elements in the food. Be sure and supply lime in abundance.

Small potatoes from productive hills give a better product than large potatoes from unproductive hills.

This shows the importance of selecting seed in the field at digging time rather than from the bin next spring.

Several instances were reported at the Texas Nut Growers' association where native pecan trees were giving regular annual returns of from \$20 to \$65 per tree in from five to twelve years after top-working with improved varieties.

Fiber of Cotton Stalks.

It has been demonstrated that fiber from cotton stalks is nearly as strong as that from flax. A process has been worked out for making paper and bagging from cotton stalk fiber which, it is estimated, will add \$50,000,000 annually to the value of the crop. Factories are now being established.

A Chester, Pa., barber declares that baldness can be prevented by having the hair cut just when the moon is full. Better the moon than the barber.

## TO MAKE GOOD TEA

ESSENTIALS TO THE SUCCESS OF THE BREW.

Care and Attention Necessary for the Proper Preparation of the Delicious Beverage—The Ideal Way.

Surely nothing is better on a cold, blustery afternoon in the winter months than a good, properly made cup of tea. Nor can anything so salutary and tonic in the summer season as that the same importation from the east, served in any of several ways. But there are a few essentials to the success of the brew which American women fail to understand, probably because the stuff of English drink, the delicate and fragrant tea, is comparatively new to this country. No tea is drinkable in any one with the slightest claims to taste unless it has been freshly brewed within the last 15 minutes, for instance. The water must have just been boiled for the first time, and only boiled five minutes at the longest. The tea must be of the best quality, or some other black mixture, not the green or Oolong varieties, if the best is desired. English tea importers are said to have spent fortunes in trying to induce Americans to buy the best tea, only to be thwarted by the fact that they have a preference for inferior and less delicate flavors of tea.

The ideal way to make a good cup of tea is to serve it in a large tray, on a low table holding only the cups and saucers. On the tray are the teapot, preferably of the Brown Betty variety, the kettle, and a spirit lamp with the water just about to boil. The cream jug, and the tea and sugar, and a plate of hot marmalade or buttered toast. The hostess hosts the teapot, pours off the water, and measuring a teaspoonful of the tea for each person, with another "for the pot," she pours into the pot the water just poured. Then a little hot water is poured over the tea, and the pot is set on the fire for five or six minutes, after which time the liquid is exactly right, and fortunate are those who can enjoy this harmless and delicious beverage fresh and hot. The quiet pause in the course of a busy afternoon, the senses and put out of the world, the work of the day, and the bustle of the city, are all forgotten in the blissful oblivion of the tea.

TRY THESE CREAM SCONES.

Properly Made, They Are a Delicious Luncheon Dish.

Beat two fresh eggs till quite light. Then mix them with rather more than a gill of single cream. Whisk well to a froth.

Reserve. Place a pound of self-raising flour in a clean, deep basin, add to it a good pinch of salt, then stir into this the beaten egg and cream and mix to a stiff dough. It may be needed to add a little more cream, as some flours require more moisture than others. Have ready a well-floured pastry board. Turn the dough out on this and roll it out to about three-quarters of an inch thick.

Stamp it out into rounds with the top of a thick tumbler. Prick the top with a fork.

Brush over quickly with new milk and bake for a quarter of an hour in a very hot oven. Split with a fork. Butter well and serve at once. Do not handle the paste more than is necessary and finish and put in the oven as quickly as possible after adding the liquid. Milk may be used in place of cream if the latter is too costly.

Testing Flour.

There are several methods of testing flour, one of which at least should be known to every purchaser of household provisions.

If flour is white with a yellowish straw-color that it is good while if it has a bluish coat, or black specks in it, it is the opposite.

Flour can also be tested by its adhesiveness—wet and knead a little of it between the fingers; if it works soft and sticky it is poor.

If a little flour is thrown against a dry, smooth wall, and it falls like a rain, you may know that it is not of the best quality.

If flour squeezed in the hand retains the shape given it, when the hand is relaxed, it is a good sign.

Coloring Straw.

Make a solution of hot water and tannin, allow half an ounce of tannin to one gallon of water and steep the straw in this solution for several hours.

Make another solution of hot water and glue, allowing an ounce of white glue to one gallon of water and pass the straw through this and dry it in the open air slowly.

When dry put through a weak ammonia water also be colored by passing it several times, pale spirit varnish while holding the desired color in the solution.

Invincible Nets for the Hair.

A great help in keeping the hair in perfect condition is the invincible nets, which have again come into fashion. The kind most preferred are quite invisible. They are pinned firmly, but not tightly over the entire coiffure, so that the hair loses none of its soft effect. Yet the net will hold the hair in waves in place in damp or fog long after the hair would be straight without the delicate covering.

Mosquitoes and Leprosy.

It is now believed that mosquitoes, among their other attacks upon human life and health, play an important part in transmitting the germs of leprosy. That disease is increasing fast in certain parts of tropical America.

A Lost Subscriber.

The Kedah post office authorities have a somewhat blight way of putting things. Copies of a Penang paper posted to a subscriber were the other day returned marked "Addressee hanged for Murder."—Bangkok Times.

Feline Prudence.

"Method, my boy, method!" said the astute and rounder, Tomaso Grimaldi. "Every morning, sir, the first thing I do when I get home, is to count up my lives, so that I always know just where I stand. Yes, sir!"—Puck.

Light and Vegetation.

Red glass has the property, while blue glass suppresses it. Sensitive plants, like the mimosa, grow 15 times higher under red glass than under blue.

## "A SMALL THING."

Do you believe in progress? Do you believe that all the wonderful achievements of the nineteenth century—the railroads, the telegraph, the telephone, electric light, kerosene, sewing machine, agricultural machinery, steamships, trolley cars, etc.—have made life easier and better worth living? I do. I believe that a man who lives 40 years under modern conditions has experienced more life and better life than a man who has lived 100 years in the wilderness, though he has lived 20 centuries of his time.

The triumphs of the nineteenth century were triumphs of human service—the placing of knowledge and the fruits of knowledge within the reach of the common man. Every man's life is better, happier, more secure, more comfortable, more useful, more profitable, more enjoyable because of them. Even the hopeless dweller in the worst city slums is more comfortable in his physical conditions than the middle-class citizen of the days of George Washington.

Little things as in great comfort and convenience have been the legacy of the "Century of Improvement." Paint, in a certain sense, is a minor matter, yet it gives beauty, healthfulness and durability to our dwellings. Fifty years ago painting was a serious proposition, and a luxury for the owners of stately mansions who could afford the expense of frequent renewals. Today ready mixed paint is so cheap, so good, and so universal that no house owner has an excuse for not keeping his property well painted.

A small thing, however, yet several hundred large factories, employing thousands of chemists and skilled workmen, are running every day in the year to keep our houses fresh, clean and wholesome.

A small thing, yet a can of good ready mixed paint, such as one may buy from any reputable dealer, embodies the study of generations of skilled chemists, the toil of a thousand workmen in mill, laboratory and factory, and the product of a long series of special machinery invented and designed just to make that can of paint and to furnish us an infinite variety of tints, colors and shades.

It was a wonderful century, the sixteenth of our era, and not the least of its wonderful gifts was that same commonplace can of paint.

New York's Great Ocean Trade.

New York is the second great seaport of the world. In 1903 over \$9,000,000 tons of imports and \$7,000,000 tons of exports were cleared through New York harbor.

Imports, exceeding New York in volume, though not by exports, Antwerp and Hamburg are third and fourth, respectively.

Low Rates to the Northwest.

Every day until Oct. 31st the Great Northern Railway will sell one-way "Colonists' Tickets from Chicago at the following low rates:

To Seattle, Portland and Western Washington, \$33.00. Spokane, \$30.50. Equally low rates to Montana, Idaho, Oregon and British Columbia.

For further information, address MAX BASS, General Immigration Agent, 220 So. Clark St., Chicago, Ill.

Uruguay's Financial Condition.

Uruguay reduced her national debt by \$1,570,450 during 1905. The total debt on January 1, 1905, was \$12,450,747, of which about \$80 per cent. was external.

Uruguay is a prosperous country, and in her prosperity is a good customer of the United States. Exports of merchandise from this country to Uruguay for the nine months ending March 31, 1906, amounted to \$2,172,276, against \$1,200,542 in the same period of the previous year.

Hard-Working Chinese Official.

Everybody in China works hard, even those who have reached the highest positions. It is related of a member of the Chinese cabinet that he left home every morning at two o'clock and he was on duty at the palace from three to six. As a member of the privy council he was engaged from six to nine. From nine until 11 he was at the war department, of which he was president. As a member of the board of education he was in charge from 12 till two, and as a minister of the foreign office he spent every day from two till five or six there. In addition he frequently served on special boards or commissions.

Not What He Was Used To.

Ever since John D. Rockefeller became an honorary member of the American Press Humors' association stories more or less apocryphal have been afloat regarding him. It is beginning to be suspected that some of them have been invented by his fellow humorists.

Refer to an occasion last summer when he entertained a lot of slim children at his stock farm near Cleveland. Mr. Rockefeller gave each of them, among other things, some milk to drink, part of it at least being the product of a \$2,000 prize cow. "How do you like it?" he asked when they had finished. "Gee, it's fine!" responded one little fellow, who added after a thoughtful pause: "I wish our milkman kept a cow!"

LOOSE TEETH.

Made Sound by Eating Grape-Nuts.

Proper food nourishes every part of the body, because Nature selects the different materials from the food we eat, to build bone, nerve, brain, muscle, teeth, etc.

All we need is to eat the right kind of food, and chewing it well—our digestive organs take it up into the blood and the blood carries it all through the body, to every little nook and corner.

If some one would ask you, "Is Grape-Nuts good for loose teeth?" you'd probably say, "No, I don't know." But Grape-Nuts are good for loose teeth.

"For the past two years I have used Grape-Nuts Food with most excellent results. It seems to take the place of medicine in many ways, builds up the nerves and restores the health generally."

"A Little Grape-Nuts taken before retiring soothes the nerves and gives sound sleep." (Because it relieves irritability of the stomach nerves, being a predigested food.)

"Before I used Grape-Nuts my teeth were loose in the gums. They were so bad I was afraid they would some day fall out. Since I have used Grape-Nuts I have no more bothered any more with loose teeth."

"All desire for pastry has disappeared and I have gained in health, weight and happiness since I began to use Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Get the famous little book, "The Road to Wellville," in plain, "There's a reason."

## COAT OF PAINT SAVED BANK.

Clever Device Stopped Run That Would Have Been Disastrous.

Runs on banks, as all the world knows, are often stopped or restricted in the oddest ways.

A rich bank knew that a run was to set in on a certain Monday morning, and it had been robbed of some valuable stamps on Saturday night, and the robbery had been exaggerated in the newspaper reports—and if this run was not kept within reasonable limits the bank would have to close its doors. It had plenty of money, but not plenty of cash. It needed 24 hours' time.

Before sunrise on Monday morning a man put a fresh coat of paint on the front doors of the bank, on the wall panels, and on the counters. The result was that the people who made the run on Monday made no run at all. They waited their money, but they rushed no one. On the contrary, they came on with caution and deliberation. So careful were they lest they get paint on their clothes that it took longer to pay off one of them than it would have taken ordinarily to pay five.

This is one of many odd tricks whereby, in a run, a bank has saved itself from wreck.

What He Most Wished For.

Join Fiske, the American historian, was an ardent lover of music and his self was much more musical. Furthermore, he was extremely capricious and felt the hot weather painfully. He was once delivering a course of lectures at a summer school in a small city of the middle west. The heat was terrible and adjoining the house where the lecturer stayed was a church where an orchestra of his "voluntary" quartet practiced and performed during all hours of the torrid afternoons and evenings. One evening, seeing the famous man sit for a time unoccupied and apparently oppressed by this combined affliction, the young daughter of his hostess attempted to divert him by offering him a new novel, then just becoming popular. "I think 'The Choir Invisible' is perfectly splendid," Mr. Fiske, said she. "Wouldn't you like to read it?" The historian put the book aside. "My dear young lady," said he, "the only choir in the world in which I could feel any interest at this moment would be the choir invisible."

TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order they cause backache, headache, dizziness, languor and distressing urinary troubles.

Kidneys are well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says: "Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are the best."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Chandler's Joke on Conkling.

Roscoe Conkling was a capital boxer and quite proud of his skill. One evening after considerable banter he induced Senator Chandler to "put on the gloves" with him. He played with the gloves for a few rounds, much to the discomfiture of the downcast. The latter bled his time and some time later quietly brought a professional pugilist to dinner where Conkling was a guest. In the course of the evening "Mr. Sen." was induced to engage in a boxing bout with Mr. Chandler. The professional danced around the senator, landing when and where he wished, playing with him as he would with a punching bag. The elegant New York senator was dazed, overwhelmed, humiliated, and called out. When he surrendered, crushed and exhausted, he did at last. Senator Chandler smiled blandly and presented the pugilist in his true colors.

Walnut a Staple Food.

In some parts of France walnuts form a regular article of diet. The peasants eat them with bread that has been soaked in walnut oil. The hygienic effects are considered good, replacing meat to a large extent. These nuts are also used to make oil. It is much cheaper and similar in taste to that pressed from olives, and is employed to adulterate the latter. The price of walnuts in certain places is so high that they are being picked and the kernels, which are pressed into oil.

Superb Service, Splendid Scenery.

en route to Niagara Falls, Muskoka and Kawartha Lakes, Georgian Bay and Temagami Region. St. Lawrence River and Lake Ontario, Thousand Islands, Adirondack National Park, White Mountains and Atlantic Sea Coast resorts, via Grand Trunk Railway System. Double track Chicago to Montreal and Niagara Falls, N. Y.

For copies of tourist publications and descriptive pamphlets apply to Geo. W. Vasey, G. P. & T. A., 138 Adams St., Chicago.

New Use for Gramophone.

Drilling native Malay levies by word of command emitted from a gramophone is the latest instance of modern ingenuity. Even the Zulu can now hear his own native songs and dances from records made by a London company, who have sold more than 20 machines to swartzy warrior chiefs in South Africa. Folk-songs of the Pygmies were recently procured and a machine has been dispatched to Lapland for the purpose, if possible, of procuring Eskimo folk-songs.

There is an altar stone in Brooklyn composed of eight policemen. The members contribute a certain amount every month which pays for light and flowers on an altar of perpetual adoration.

White Diamond Found.

A white diamond, weighing 1494 karats, has been found by a digger at Kharpenang near Kimberley, who sold it for \$14,455.

Smokers appreciate the quality value of Lewis' Single Binder cigar. Your dealer or Lewis' Factory, Peoria, Ill.

About two-thirds of a man's friends are enemies in disguise.

Hurt, Bruise or Sprain.

St. Jacobs Oil relieves from pain.

People with real troubles never advertise them.

## There was a time when the obese woman was the light of other days.

PUTNAM PATENTLESS DYES produce the brightest and most lasting colors with less work and no waste.

Somehow it doesn't sound just right when a splinter asks for a match. Lewis' Single Binder Cigar. (Covers straight, smooth, and has a new quality. Your dealer or Lewis' Factory, Peoria, Ill.)

Those men who ride on the water wagon get some awful pots. Mrs. Winslow's Soothing Syrup. For children's teething, or all the ailments of infancy and childhood. Sold by all druggists.

If a man would know himself thoroughly he had a much time to waste in trying to find out things about his neighbor.

Washing Windows.

The method of washing windows has changed very much of late. Henry a good deal of pleasure made from having soap and water on the window sashes, but they rushed no one. On the contrary, they came on with caution and deliberation. So careful were they lest they get paint on their clothes that it took longer to pay off one of them than it would have taken ordinarily to pay five.

Rich Crowned Has Disappeared.

A richly jeweled crown which cost \$20,000, and disappeared from the church at Mount St. Michael, Rouen. One version is that it has been stolen, another that it has been hidden by the priests to save it from confiscation by the government.

Cheap Excursions South.

On the 1st and 3rd Tuesday of each month the Big Four R.R. will sell excursion tickets to most all points in Virginia, South Carolina, Tennessee, Alabama and Georgia at rate of one fare plus \$2.00 with return limit 30 days. Liberal stopover privileges.

Write: L. P. Spaulding, General Passenger Agent, Big Four Route, 238 Clark St., Chicago, for further information.

Remarkable Double Wedding.

has been celebrated in a Vermont church. A manufacturer named Muller, married a widow, while at the same time his son married the widow's daughter. Thus the father becomes the father-in-law of his own son, and the mother-in-law of her daughter.

\$100 Reward, \$100.

The reader of this paper will be pleased to learn that there is a reward of \$100 for the person who will furnish information leading to the discovery of the person who has stolen the \$100 reward. The reward is for the person who has stolen the \$100 reward. The reward is for the person who has stolen the \$100 reward.

Condemn Daytime Naps.

Prolonged "40 winks" during the day are severely condemned by many doctors on the ground that they affect one's regular sleep. Scientists have shown that in the ordinary course of the human being there is the greatest vitality between ten a. m. and two p. m., and the least between two o'clock and six o'clock in the morning. Long sleeps during the day, therefore, are a sign of weakness and some times affect various organs, causing nervous prostration.

The nap of 40 winks, but only 40, proves refreshing to many because it is too short to have any injurious consequences.—London Telegraph.

NO REST NIGHT OR DAY.

With Irritating Skin Humor—Hair Began to Fall Out—Wonderful Result from Cuticura Remedies.

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out, and my scalp itched all the time. Especially at night, just as I got warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair started falling out. D. E. Elam, 319 N. Del St., Indianapolis, Ind., Oct. 27, 1905."

Anecdote of Robert R. Hitt.

The late Robert R. Hitt had a knowledge of stenography and was of great value to him in debate. He has been known to rise with his hand full of shorthand notes of a speech just delivered to which he was about to reply and was to the man who employed Mr. Hitt of misquoting him. He was the patron saint of the stenographers of the house. No long ago political audience was about to displace from the line of promotion a young expert writer of shorthand from Michigan whose work Mr. Hitt had occasion to admire. Mr. Hitt went to Speaker Cannon. "This will never do, Joe," said the shorthand man without this man. "The house must have him." "All right, Hitt," replied Speaker Cannon. "If anybody knows the sort of stenographers this house ought to have you are the man." That settled it and the Michigan stenographer held his place.

White Diamond Found.

### OUR NOMINEES.

#### STATE.

For Governor, John A. Aylward.  
For Lieutenant Governor, Michael P. Blenski.

For Secretary of State, C. J. Nord.  
For State Treasurer, Andrew Johnson.

For Attorney General, Martin Lueck.  
For Insurance Commissioner, Henry J. Neuman.

#### LEGISLATIVE.

For Member of Congress, Dennis D. Canis, Grand Rapids.  
State Senator, Fred Rowland.  
Member of Assembly, Frank N. Pommeroy.

#### COUNTY.

County Clerk, Edwin J. Hahn.  
Treasurer, Leo Bensch.  
Sheriff, Julian Wadch.  
District Attorney, W. E. Whelan.  
Coroner, H. VanRath.  
Clerk of Court, L. E. Galt.  
Register of Deeds, Charles E. Bales.  
Surrogate, Michael Krings.

### The Republican Plan.

In a speech at Lincoln, Nebraska, recently made by President Fairbanks declared that the Republican party stand for government ownership of railroads, emphasizing the principle that the government should own and operate the railroads, and that the government should own and operate the railroads, and that the government should own and operate the railroads.

### Congress Aids in Barley Tests.

The breeding of high grade grains, and particularly of barley, one of the most important branches of work carried on by the Wisconsin Agricultural Experiment Station at the University of Wisconsin, has just received a special impetus through arrangements which have been made for cooperation between the station and the Department of Agriculture at Washington. The appropriation of \$10,000 made by the last Congress will be used to continue and enlarge the work which for eight years has been conducted successfully at Wisconsin. As there are 100,000,000 bushels of barley raised annually in the state, it is readily seen that the work of breeding a grade of barley which will yield from five to ten bushels more per acre than ordinary grades is of major vital importance to the farmers of Wisconsin. It means an increase of from 2,000,000 to 5,000,000 bushels in the year's crop.

### Another Wisconsin County.

Evening Wisconsin: Wisconsin now contains seventy-two counties. When the next session of the Legislature comes to an end it will have seventy-two, if a project now under way is carried to a successful issue. The new county, if constituted, will consist of two tiers of townships from the northern part of Clark county, the southern tier from Taylor county, and five or six from Marathon county. Opposition to the idea has shown itself in the past, and may present itself again, but settlement is progressing, and sooner or later the new county is likely to be born.

### Result of Neglect.

In most cases consumption results from a neglected or improperly treated cold. Foley's Kidney and Bladder Pills cure the most obstinate coughs and prevent serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. Daily Drug & Jewelry Co.

### MECHAN.

Mrs. Percy George and daughter Gaucelyn of Nekeosa were the guests of the M. H. Manger house the first part of the week. Mr. and Mrs. John Chausier, who have been living in the western part of the state this summer, are visiting relatives here this week. Mr. and Mrs. A. Green were the guests of their daughter, Mrs. Arthur Sweeney and family Sunday.

### FARM FOR SALE

Good, 40-acre farm in the town of Sigel, located near creamery and known as the old Peterson place; 30 acres under cultivation, small frame house and log barn on place, also 2 good wells. For price and particulars call or address, Mike Jackson, Sigel, Wis.

### EVERY MEMBER OF THE FAMILY

will appreciate the comfort of a fine modern bath room. If you are thinking of remodeling your house or of building a new one, don't fail to give your most serious attention to the important item of PLUMBING. If you give us the contract you will get the very best workmanship, the finest materials and lowest possible price.

### J. E. FARLEY

Plumbing, Heating, and Sanitary Work.

101 N. Broadway, Grand Rapids, Wis.

Phone 101.

Grand Rapids, Wis., Oct. 17, 1906.

Entered at the Post Office at Grand Rapids, Wis., as second-class mail matter.

SUBSCRIPTION RATES.  
One Year, \$1.00.  
Six Months, \$0.60.

### OUR COUNTRY CORRESPONDENTS.

#### RUDDOLPH.

Mr. and Mrs. Joe Granshaw and Mr. and Mrs. Paul Puntin spent Saturday and Sunday visiting friends and relatives at Stevens Point. Those that visited at Dr. J. A. Jackson's home last week were his father and mother from Waukesha and his sister, Mrs. Stang and her husband from Milwaukee, and Mrs. Jackson's brother, Dr. Purvis and wife and her sister from Berlin.

#### SIGEL.

Sunday noon at the home of Mr. and Mrs. Fred Pimp occurred the marriage of their daughter, Alvina, to Edward Mahoney, of Grand Rapids. Judge Brown of Grand Rapids officiating. The groom was attended by August Pimp and the bride by her sister Anna. The bride was raised in this town and is a most estimable young lady, and has a large circle of friends. The groom was raised in Grand Rapids, being one of the respected and industrious young men. They will make their home in Grand Rapids. They have the best wishes of a host of friends.

#### AN AWFUL COUGH CURED.

"Two years ago my little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough, and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat." writes Mrs. Ora Bessard, Bismarck, N. D. This remedy is for sale by Daily Drug & Jewelry Co.

#### PITTSVILLE.

The H. J. Hahn Co. paid out nearly \$10,000 here last Friday through the Pittsville State Bank to cucumber growers in this vicinity. The company now has 31 vats full of pickles, the capacity of some of which are 500 bushels, while others hold 650 bushels.

#### W. S. JACKSON.

W. S. Jackson transacted business several days last week in the vicinity of Marshfield and Stanley. C. L. McCoy and Wm. Thompson, of Magnolia, are visiting with the former's son, H. G. McCoy. Mr. and Mrs. J. C. Kutz visited at the home of their son, Carl, at Arcadia for a few days this week. Julian T. Welch of Marshfield, Democratic candidate for sheriff, was in the city on Friday looking after his political interests.

#### YESPEN.

John Guntz has sold his farm and moved to western Canada. William Guntz is building a new barn on his farm north of Yesper. Joseph Walte, one of our up to date dairy men, has built a silo and filled it with ensilage. He has also purchased a milking machine. Wm. Apple has commenced to lay brick on the school house, District No. 3 Sigel. If you have lost your household spirits, courage and confidence of youth, we offer you a new life, fresh courage and freedom from ill health in Hollister's Rocky Mountain Tea, 35 cents, ten or more.

## EAST AND SOUTH IN GRIP OF COLD WAVE

STORM OF SNOW AND SLEET IN  
NEW YORK STATE.

INTERFERES WITH WIRES

Telegraph and Telephone Lines Are  
Wrecked, Great Damage Being  
Done and Traffic Generally  
Has Been Delayed.

Chicago. — One man was frozen  
to death, two were electrocuted  
by live wires torn down by the  
heavy snow, and four were drowned  
by the wreckage of a sailing vessel in  
different parts of the country Thurs-  
day.

The fruit and celery crops in Mich-  
igan and in New York were destroyed  
by the cold, heavy frosts in the south  
damaged upward of 150,000 acres of  
cotton, and telegraph and telephone  
lines were destroyed by the winds.

From almost every point east of  
Chicago, west to the Rocky moun-  
tains, and north into Canada, im-  
posed cold was reported, and at most  
of the places snow was reported.

Washington. — A cold wave swept  
over the east and south Thurs-  
day and broke all records for this  
season in many sections, but at night  
the weather bureau announced that  
while the temperature would rise  
"only slightly" Friday, there would  
be warmer weather Saturday, and by  
Sunday small east and south.

In many sections the severe cold  
snap was accompanied by snowfall  
and a storm of snow and sleet that  
raged in upper New York state particu-  
larly, caused great damage, wrecked  
telegraph and telephone lines and in-  
terfered with other traffic.

To BUILD CANAL BY CONTRACT.  
Bids Asked by the Government for  
Digging the Big Waterway.

Washington. — Invitations for propo-  
sals to complete the Panama canal  
were issued Tuesday by the canal  
commission, and the form of contract  
under which the work is to be done  
was made public by Chairman Shreve,  
who also gave out a letter written to  
the contractors by the government.

The contract provides that each bid-  
der must undertake the entire work  
of construction. No bar will be offered  
to corporations associating in the en-  
dertaking, but they must be legally or-  
ganized into a single body with which  
the government can deal. Bidders will  
not be considered who do not have  
available capital of \$5,000,000. A cer-  
tified check for \$200,000 is required  
with each proposal and a bond of \$3,  
000,000 will be required from the suc-  
cessful bidder.

## GEN. FUNSTON LEAVES CUBA

GEN. BELL WILL COMMAND AMER-  
ICAN TROOPS IN ISLAND.

Secretary Taft Explains Change of  
Plans—Cubans Were Opposed to  
Funston.

Havana. — The recall of Gen.  
Frederick Funston was announced  
Wednesday night by Provisional Gov-  
ernor Taft. Gen. J. Franklin Bell will  
succeed him in command of the  
American forces in Cuba, and Gen.  
Funston will accompany Mr. Taft and  
Mr. Bacon back to America.

In explaining this change of plans,  
Gov. Taft said:

Gen. Funston was summoned on a  
hurry call from the Pacific coast be-  
cause he was well acquainted with  
many of the insurgent chiefs here and  
it was thought he could aid us, as  
he did greatly, in bringing the men in  
under an agreement.

Gen. Funston was in command of  
the troops in Cuba merely as a con-  
venience until Gen. Bell should ar-  
rive. Gen. Funston, Mr. Bacon and  
myself, with Mrs. Taft and Mrs. Ba-  
con and our secretaries are returning  
to our permanent duties.

Many Cubans of the faction to  
which Mendez Capote and others who  
organized the moderate party belong,  
were outpoken against Gen. Funston,  
alleging that he had deserted them in  
the war to throw off the yoke of  
Spain.

Havana. — Charles E. Magoon, the  
newly appointed provisional governor  
of Cuba, arrived here Tuesday after-  
noon. General Bell will accompany  
Gov. Taft back to a general de-  
parture from the island.

## STANDARD OIL IS ON TRIAL IN OHIO

State Attempting to Prove the Mon-  
opoly Corporation is a Trust—Law-  
yers Wrangle Over Technical  
Points and Defense Loses —  
Rockefeller's Former Testimony  
Admitted.

Cincinnati, O. — The suit of the state  
to compel the Standard Oil company  
of Ohio, in which the company is  
charged with conspiracy against  
trade, began here Tuesday and pro-  
ceeded at a rapid pace.

A jury, composed mostly of farmers,  
was secured in less than two hours.  
County Prosecutor W. L. Kline, at-  
torney for the state, presented his  
case. Virgil E. Kline, attorney  
for the defense, made answer.

# GRAND RAPIDS TRIBUNE.

Grand Rapids, Wisconsin, Wednesday, Oct. 17th, 1906. VOL. XXXIII, NO. 25

## CANDIDATE FOR CONGRESS.

We present to our readers this week the picture of Dennis D. Conway, the democratic candidate for congress in this district. The tenth congressional district is a large one, including thirteen counties in the northern part of the state, extending from Wood County on the south to the shores of Lake Superior on the north, and it is doubtful if the democrats in all this territory could have picked out a man who is a more energetic and tireless worker than Mr. Conway.

He was born and reared in Wood County and for the past decade has been engaged in the practice of law in this city where he is well known, and

has never been a time when he has not stood for all that was best in democracy. He is a man who believes in truth, reform, and the betterment of the human condition. He is a man who is a member of a great manufacturing enterprise and this is the kind of a man we want to elect to congress.

For years past the tenth district has been represented by men who cut no more figure at the national capital than they would had they remained at home. Now, if they had any convictions, they would have been in the front ranks of the reformers.

W. C. McGowan was acting as substitute carrier on the rural route last week in place of H. W. Lord, the regular carrier who was taking a few days off.

Auton Marcu was up before Justice Brown on Thursday on a charge of driving over the bridge faster than a walk. He paid a fine of five dollars and costs for his hurry.

Ed H. Clump is exhibiting a large apple which was sent him by his brother, H. H. Clump, who is a resident of Buckley, Washington. The apple is found on a half inch in circumference and weighs 23 ounces and is certainly a fine specimen of fruit.

## AN EVEN BREAK.

Football Game Between Grand Rapids and Stevens Point Again Stands 0 to 0

The Normal football team came over from Stevens Point on Saturday and played a game with the local high school team and the score resulted in a tie as before, it being 0 to 0.

The day was exceedingly warm for football, but the boys played a good game nevertheless, and very little time was taken out by either side either on account of injuries or for resting up. Our boys had rather the best of the game most of the time and at one time they got near enough to the goal so that a drop kick was tried, but failed to make good. Most of the game was made thru the lines and runs around the end generally failed to gain anything for either side.

Under the new rules there is more running than in the old game, as in every yard line there is almost impossible to make the required ten yard gain in three downs.

There was one sensational play in the second half, when the Stevens Pointers lost the ball on a fumble and Crows of the home team picked it up and started down the field on a gallop. There was a Stevens Point boy right behind him however, but the ball was advanced fully thirty five yards before Crows was downed and had not been suffering from an injured limb, it is probable that a touchdown would have been made right there. The Stevens Point team was considerably heavier than our boys and it was only the extra weight that saved them from certain defeat.

The Grand Rapids Art Co. came to town about two weeks ago and put on a display of the old time, crinolines, which they told the admiring public were something brand new, and they offered to touch the process of making them for the nominal sum of five pinks. They stated that they secured forty people they took a partner in the person of Dr. Wm. Waldo and since the original owners of the Art company left William has been the whole works. It is stated that there were several unpaid bills that the company forgot to settle before leaving.

Some time ago there came to the Tribune office a book entitled "The Packers, the Fur and the People," written by J. Ogden Armour. It is a book bound in yellow cloth about the color of a small fox skin, but for some reason or other, up to the present time we have neglected reading it. Whether this neglect has been an injustice to Mr. Armour, or has proven beneficial to him, we are unable to state. Some day when it is raining and there is nothing to do in the office, and it is impossible to find anybody to play checkers, and there are no other books or papers to read, we will steal a few hours from our busy life and give Mr. Armour's book a careful perusal.

It is understood that the book was written for the purpose of giving the people the picture of the story in the recent investigations that have been held in the country, but up to date it does not seem to have caused much of a furor among the reading public.

A Prohibition Speech. Dr. Eaton, the prohibition candidate for governor, delivered a speech at the opera house Monday evening. Mr. Eaton is an entertaining talker and presented the cause of the prohibitionists in a most convincing manner. The theory of prohibition, like many other theories, is a most convincing one, but it does not work in practice. One reason is that there are a great many people who are hypocritical enough to talk against the use of intoxicating liquors and thereby convey the impression that they are prohibitionists, or at least temperance advocates, when all the time they have a supply of booze in the cellar for their own use. It might be said that there are black sheep in every party and that their existence is no criterion that the argument is no good, which may be true. But the fellow on the outside sides up the whole crowd by this one man and immediately concludes that he wants nothing to do with such a crowd of hypocrites, judging that they are all like the fellow whom he has found out.

Boell to Wrestle McLeod. Fred Boell the Marshfield wrestler has been matched to wrestle with Dan McLeod, who for many years held the middle weight championship of the world. Boell and McLeod met in Fond du Lac about eight years ago, when McLeod agreed to throw the Marshfield boy three times in an hour, but it took him so long to gain the first fall that he saw he was up against a losing proposition and threw up the match. McLeod is a man of about Boell's weight and build and the match should be a good one. It will occur in Chicago next Friday evening.

Will Open a Meat Market. Otto Stewart and Ed Warner have leased the vacant building on the corner of Grand and Second Avenues on the west side and expect to open a meat market there as soon as the necessary alterations have been made. Mr. Stewart formerly operated a shop at Nekeosa and is well posted in the business.

Hayes-Clark. Miss Minnie Hayes of this city and Wm. Clark of Rudolph were married Tuesday afternoon at the home of Mr. and Mrs. O. E. O'Dell, Rev. Dean of the Christian church officiating. They were accompanied by O. E. O'Dell and Miss Clark. Mr. and Mrs. Clark will reside at Rudolph where the groom is engaged in the creamery business.

John Casey, who has been employed with the Electric Light Co. the past two years, resigned his position and departed last week for Moscow, Idaho, where he has taken charge of a plant.

## AWARDED PRIZES.

Ladies Distribute Money to Those Who Went Into Competition for Neatness

The directors of the City Federation of clubs met at the home of Mrs. W. T. Conway on Monday to select the winners of the prizes for the ladies' contest for neatness. The contest was held on the 10th and 11th inst. and the prizes were awarded to the winners of the contest for neatness. The prizes were awarded to the winners of the contest for neatness. The prizes were awarded to the winners of the contest for neatness.

Mr. Stewart formerly operated a shop at Nekeosa and is well posted in the business.

Hayes-Clark. Miss Minnie Hayes of this city and Wm. Clark of Rudolph were married Tuesday afternoon at the home of Mr. and Mrs. O. E. O'Dell, Rev. Dean of the Christian church officiating. They were accompanied by O. E. O'Dell and Miss Clark. Mr. and Mrs. Clark will reside at Rudolph where the groom is engaged in the creamery business.

John Casey, who has been employed with the Electric Light Co. the past two years, resigned his position and departed last week for Moscow, Idaho, where he has taken charge of a plant.

Boell to Wrestle McLeod. Fred Boell the Marshfield wrestler has been matched to wrestle with Dan McLeod, who for many years held the middle weight championship of the world. Boell and McLeod met in Fond du Lac about eight years ago, when McLeod agreed to throw the Marshfield boy three times in an hour, but it took him so long to gain the first fall that he saw he was up against a losing proposition and threw up the match. McLeod is a man of about Boell's weight and build and the match should be a good one. It will occur in Chicago next Friday evening.

Will Open a Meat Market. Otto Stewart and Ed Warner have leased the vacant building on the corner of Grand and Second Avenues on the west side and expect to open a meat market there as soon as the necessary alterations have been made. Mr. Stewart formerly operated a shop at Nekeosa and is well posted in the business.
